

TERRACE

Plant wall accessory

Discover a better way to showcase and organize aquarium plants with the Ultum Nature Systems Terrace. This tiered display accessory makes it easy to arrange and grow plants. Each tray offers space for substrates like UNS Controsoil and includes cutouts for natural root growth. The design ensures good light reaches every level, and the adjustable height fits UNS Tall Rimless Aquariums perfectly.

SKU	ASSEMBLED DIMENSIONS(IN)	EXTENDED DIMENSIONS(IN)	GLASS THICKNESS RANGE
UNSTR30	11.02 x 5.27 x 11.34	11.02 x 5.67 x 13.35	5 - 15MM
UNSTR45	16.54 x 5.27 x 11.34	16.54 x 5.67 x 13.35	5 - 15MM

Go above and beyond

All Ultum Nature Systems Terrace Plant Displays come with a pair of riser legs, elevating the entire display by approximately 2 inches. This added height ensures compatibility with both cube, standard, and tall UNS Rimless Aquariums, offering greater versatility for aquascapers.

① The plant trays are adjustable front to back.

TERRACE 45
RAISED CONFIGURATION

Get hooked up

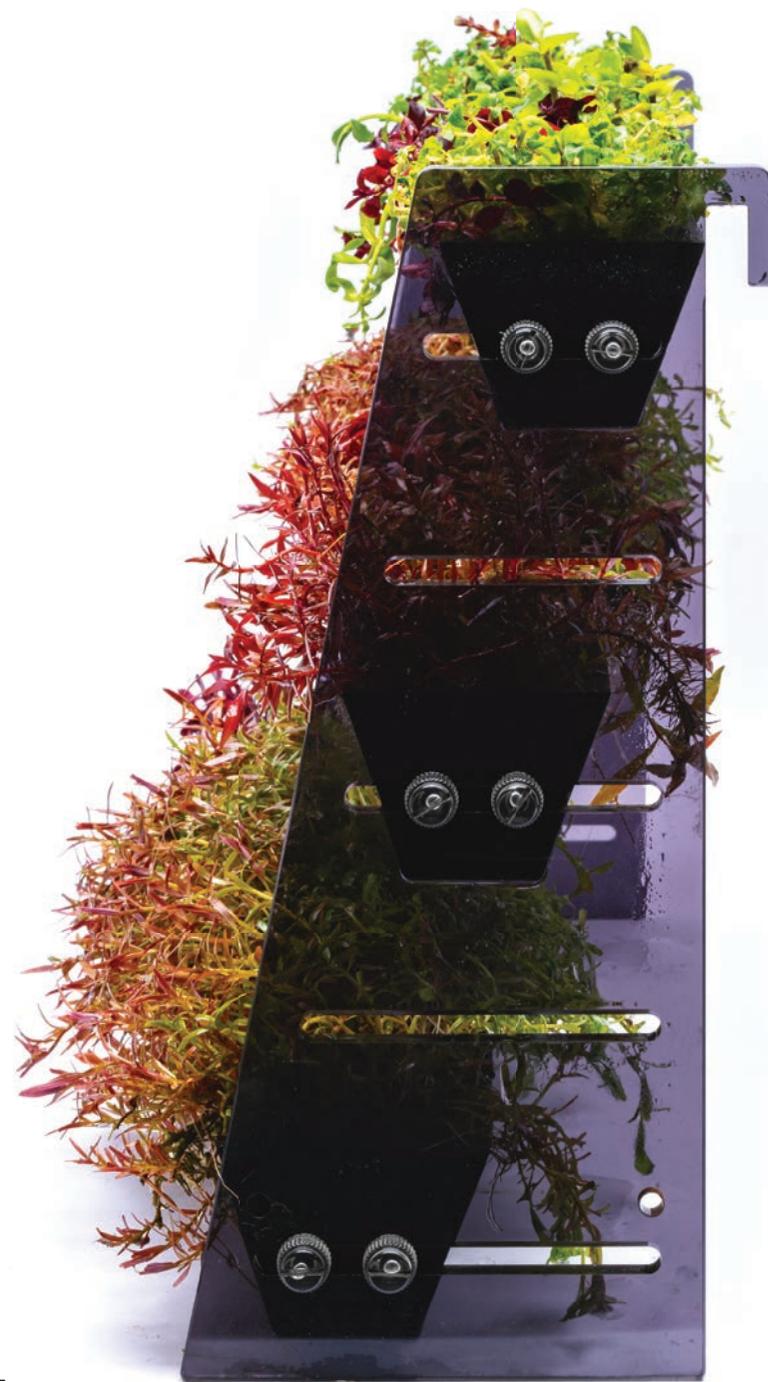

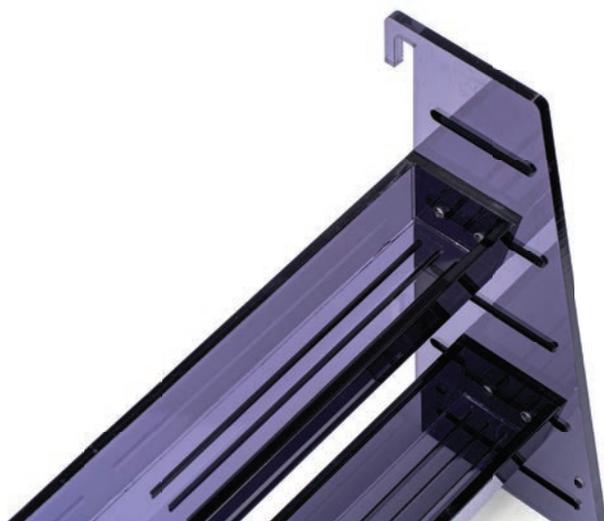

Two integrated hooks are precision-cut into the side panels to securely anchor each Terrace unit, making it compatible with all recommended UNS Glass Rimless Aquariums.

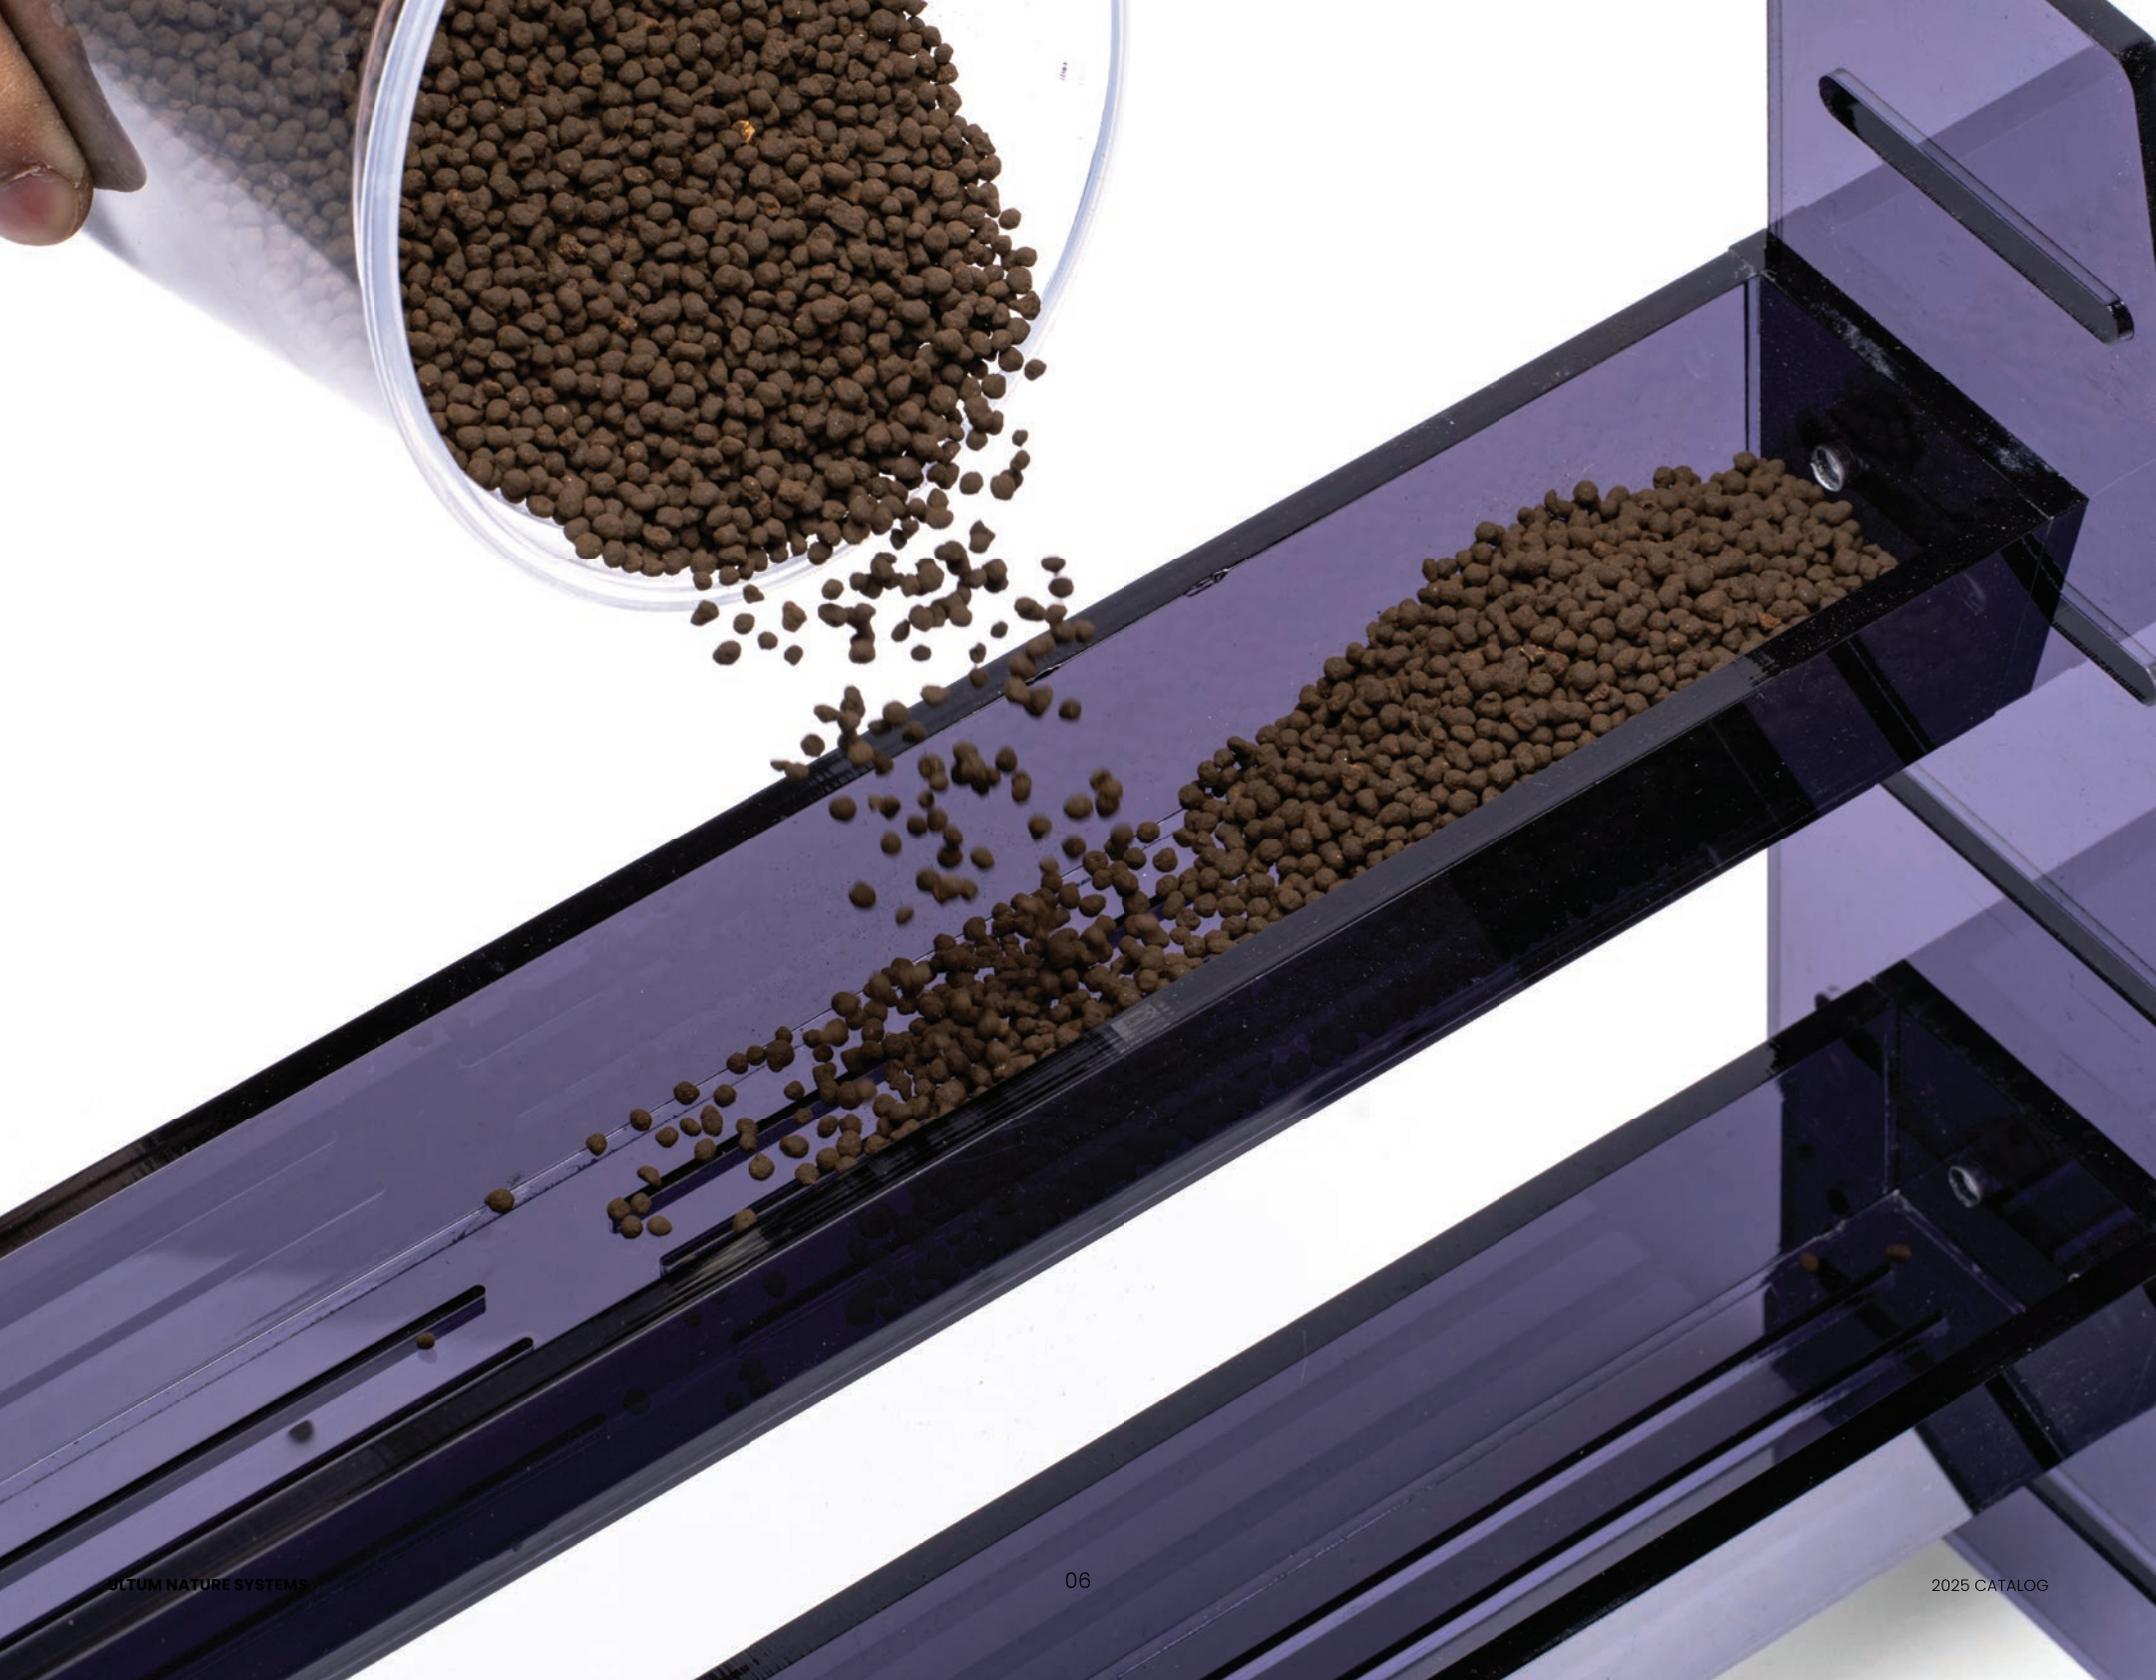

Adjustable plant trays

The three included trays can be staggered to ensure even the lowest tray receives ample light. Each tray also features four 5mm pre-cut slots that guide roots straight down for healthier growth and a well-pruned look. In addition, each tray can be adjusted to different heights to accommodate plants of varying sizes.

TERRACE + CONTROSOIL

Controsoil has been tested and recommended for use with Terrace. The slots in each of the three Terrace plant trays are designed to accommodate Controsoil Fine granules.

TERRACE 30 Holds up to 1.5 Liters of FINE granule size

TERRACE 45 Holds up to 2.5 Liters of FINE granule size

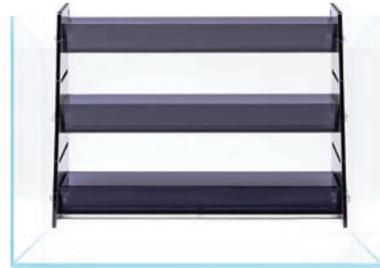

SINGLE USAGE

Each Terrace fits two UNS Rimless Aquarium sizes (UNS 30C or 45U) and their taller counterparts (UNS 30T or 45T).

TIP!

The highest plant tray can be adjusted by one level, allowing the first tier of plants to grow submerged or emersed.

COMBINED USAGE

Using two identical Terrace models or mixing different ones allows for more possibilities across various UNS Rimless Aquarium sizes.

GUIDE

CONCEPT

A mixture of color aquatic stem plants were used during the product development phase of Terrace. These stem plants were selected for their subtle light tolerance differences and adaptability to emergent growth, ensuring a more cohesive aquascape.

TANK	UNS 45U 9.3 GALLONS
SUBSTRATE	UNS CONTROSOIL BLACK FINE UNS CONTROSAND TAHOE
LIGHTING	LED LIGHT FOR 8 HOURS

TERRACE + PLANT FOOD

Terrace is designed for both emergent and submergent stem plants. For optimal growth, start by dosing Plant Food MIN after planting, then gradually switch to MAX for sustained nutrient support and long-term healthy development.

Step up your game

Even the most demanding plants at the lowest level will receive ample light to thrive. The depth and strategic placement of each tray ensure optimal light penetration without compromising the aquarium's natural depth—just as Terrace was designed to do.
