

ATOMIZER

MIST MAKER SET

The Ultum Nature Systems Atomizer Mist Maker is an ultrasonic mister designed to emulate jungle-like conditions for tropical terrestrials and aquatic plant species grown emergent. Atomizer produces a gentler layer of fog to increase humidity levels and support healthy plant growth.

The Ultum Nature Systems Atomizer Splash Guard is an optional accessory that may be used with the Atomizer Mist Maker to reduce splashing and prevent water spills during use.

The Atomizer Mist Maker Set is recommended for use with aquariums that have emergent aquatic plant growth or paludarium setups that feature plant species that require higher humidity.
